

Special Arrangements

Please contact us at ielts.goteborg@folkuniversitetet.se or 031 106573 if you would like to request special arrangements so that we can guide you. Medical evidence must be provided.

The most common request we receive is for extra time due to dyslexia where we are usually able to agree extra time of 15 minutes for the reading and writing components of the test. We should receive your request and full supporting evidence at least two weeks before your preferred test date.

Other requests for special arrangements can take longer to assess and agree so please be sure to contact us at least six weeks in advance of your preferred test date. Often these tests must be taken on paper rather than computer.

Your test will be marked according to the usual criteria.
