

## UPDATE ON THE ERASMUS+ PROJECT FLER (Learning by experiencing Escape Rooms: Financial Literacy for Adults)

The FLER Project, an initiative aimed at enhancing financial literacy, particularly among individuals residing in rural areas, is moving forward. With a passion for transforming the often-intimidating world of finances into an exhilarating journey of discovery, FLER is set to redefine the way adults learn to make sound financial decisions, whether in their daily lives or business ventures.

The FLER Project is committed to empower individuals with financial knowledge and skills. To achieve this, FLER is harnessing the power of virtual escape rooms, turning them into dynamic real-life-based scenarios that dive deep into the heart of financial literacy.

By actively engaging and challenging participants in the Escape Room environment, FLER's unique approach will empower them with the essential knowledge and practical skills required to navigate the intricate landscape of financial literacy confidently.

### Navigation the Escape Room of Financial Literacy

Within the virtual training space, participants will find themselves immersed in real-life financial scenarios carefully curated to reflect everyday challenges. These scenarios will not only entertain but also educate, instilling financial literacy principles into the very fabric of the Escape Room experience.

By actively participating and responding to various challenges embedded in the Escape Room, participants will undergo a transformative journey. They will improve their financial literacy, developing the ability to make informed decisions, and mastering the art of financial management - all in an environment that is as entertaining as it is enlightening.

The Escape Room format, combined with FLER's dedication to imparting vital financial knowledge, will empower participants to transcend financial barriers. The project's mission extends beyond just educating; it aspires to enhance financial competency among those who need it most, contributing to financial well-being, independence, and social welfare.

In an era where financial literacy is a cornerstone of personal success, the FLER Project is poised to make a significant impact. By offering a unique, engaging, and effective approach to financial education, FLER is paving the way for a brighter and more prosperous future.

This project has been funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

PROJECT RESULTS:

- *Identification of the needs, challenges and problems of adults in learning Financial Literacy,*
- *Scenario-Based-Learning Courses* based on different real-life scenarios aiming to improve financial competencies, tailored to the learning needs of low financial literate adults,
- *Virtual Escape Rooms* - appealing and motivating Game-Based Learning tool in the financial literacy.

### Project Partner meeting in Uppsala, Sweden

The team behind the FLER Project recently convened in the historic city of Uppsala for an inspiring and highly productive meeting. The discussions were marked by a deep dive into innovative concepts and methodologies crucial to the creation of captivating scenarios for our upcoming virtual escape rooms.

The enthusiasm and anticipation are running high as we collectively embark on this exciting venture. We look forward to the results of our collaborative labor, confident that this pioneering effort will be a transformative force in enhancing financial literacy among adults.
